Health Care Suspension Versus Termination for Inmates	Economic Support (ES)	Under federal law, BadgerCare Plus and Medicaid may not pay for health services provided to incarcerated individuals with the exception of someone who is outside of prison or jail for 24 hours or more (e.g., when admitted as an inpatient to a hospital). Given this restriction, BadgerCare Plus and Medicaid have had a longstanding policy of terminating eligibility when someone is incarcerated and requiring a new application upon release. Provisions in the federal SUPPORT Act require states to "suspend" instead of terminate Medicaid eligibility for juveniles and former foster care youth who are incarcerated. Effective October 24, 2020, the Department of Health Services plans to suspend instead of terminate BadgerCare Plus, SSI-related Medicaid, and Well Woman Medicaid eligibility for any inmate regardless of age. This change will streamline the process, making it easier for inmates to regain healthcare eligibility prior to their release from jail or prison.
