Administrator Report - Steve O'Malley

• APPOINTMENT OF HIGHWAY COMMISSIONER – Ronald Chamberlain

Administrator O'Malley has the pleasure and responsibility to make recommendation of appointments of department heads for appointed positions when they become vacant. Public Works & Infrastructure sat in with him on the interview process for the highway Commissioner. Ron comes from Adams County and has been their Highway Commissioner since 1998. Prior to Adams County, Ron was with the City of New Lisbon. This is the 7th department head recommendation and so far they have all been a great success. Ron thanked the County Board for the opportunity to come work with La Crosse County. In the 13 years with Adams County, he never heard a complaint about La Crosse County or the Board. He believes he brings innovations that we may or may not have been exposed to in the past, is progressive and likes to look at new processes and funding sources. His reputation shows he is gifted at finding money. Ron was welcomed aboard to a round of applause. He will be starting April 4, 2011.

Motion by J. Berns/ B. Brockmiller to approve the appointment of the Highway Commissioner passed on a unanimous vote with 32 ayes, 3 excused – J. Johnson, R. Keil and R. Plesha.

• WCA Legislative Conference: The conference highlighted a number of difficult things on the horizon for the State, County and economy. Budget repair proposal had not been presented yet. What was promised by secretaries of the new administration was increase in flexibility, and so far has not seen answers on any mandates we are required to provide. Number of Board members asked what position we are in to deal with state budget cuts and what steps have been taken to be in this position.

The County could never be prepared for everything that will happen over the next biennium. Some of the steps taken are long term debt strategy to level general operating debt, short term debt highway payments by fund balance, review management to employee ratio, review of any position vacancies, scrutinizing out-of-state travel, preserving financial reserves, including interest stabilization, human services review of residential placements, long term contracts of laundry, food service and jail medical, VOIP for all phone service, multi-year Capital Improvement Plan, MVHS revenue now equaling \$1.2 million year, negotiating 1- year wage freeze with employees for 2011, no increase in health and dental premiums, voluntary unpaid time off by employees to save \$240,000, and two years in a row of no increase in operating levy.

- Update on Budget: Budget Repair Bill Overview Legislative Fiscal Bureau indicated no need for repair, Governor has proposed anyway, \$137 million deficit made deeper by new tax cut legislation, overturns 40 plus years of labor relations, drastic steps disrespects local decision making and conditions, eliminates collective bargaining for most employees except on wages at Consumer Price Index, employer prohibited from bargaining on: conditions of employment, health insurance, steps and ranges, overtime and discipline, recertification of unions will be annually, employer cannot withhold dues, protective services is excluded but not supervisory staff in these field, shifts 50% of WRS to employees effective 1st payroll in April, many moving parts and unintended consequences so far including loss of \$45 million transit aid, makes all employees "at will", impact on vacation/sick leave and past practices unclear. Final version may be changed. This will not affect any contract that is already signed. Very little is known about cuts at present time. Was told to expect cuts in ranges of 40%-70% of Shared Revenue. Cuts will be expected to anyone above 133% of the poverty level off Medicaid. Counties and employees did not cause the state deficit. Over the past 3 decades, there has been no increase in any major revenue. The state shifting of costs to Counties has kept the state deficit lower and driven property taxes. There is no justification to exempt protective service employees who already enjoy the highest pension contribution of 20.1%.
- Gary Ingvalson touched briefly on the handout given out regarding sales tax revenue. We would need to receive about \$800,000 from December to come in close to budget.

Corporation Counsel Report – William Shepherd

- The County is a member of Wisconsin Municipal Mutual Insurance Company (WMMIC) and has been chair of the board for the last 2 years. Starting January 1, 2011 the liability coverage increased from \$5 million to \$10 million.
- The case is listed as Stenberg vs the County but is better known as the Harter death claim. Individual was killed on the Clinton Street Bridge. Heirs of the estate filed suit against the County. The person who hit Harter was later caught and convicted of the crime and currently is in prison. The case has now been dismissed following motions for summary judgment. We are claiming without a trial there is no legal basis for this case to proceed. By not answering our counsel's motions, the plaintiff voluntarily signed a dismissal as long as we don't request attorney fees and cost against the plaintiff. The case being dismissed had to do with discretionary Snowplowing is an act covered with discretionary immunity. December was one of the snowiest months and keeping the sidewalks clear was not a priority over keeping the interstates and highway safe for travelers. There is a three week period of time to remove such snow and the facts showed we were well within that window and had cleaned that sidewalk several times that December. Another thing that was present in this case was the issue of the decedent's failure to observe the rules of traffic safety when walking on a highway. This individual walked on the right side of the highway, with no sidewalk, and back to traffic on New Year's Eve wearing dark clothing.

NOW, THEREFORE BE IT RESOLVED, that the La Crosse County Board does hereby approve the fees for NIVD services to be charged by CSA commencing March 1, 2011 as set forth in Attachment A and incorporates said fees as a part of the Comprehensive Master List of fees charged by County Departments. RESOLUTION NO. 81-2/11 RE: DETERMINATION OF NECESSITY TO ACQUIRE SCHROEDER PROPERTY ON STATE ROAD 16

WHEREAS, the Schroeder Property located at W5151 State Road 16, La Crosse, Wisconsin consisting of 4.64 acres which is immediately north of the La Crosse Disposal Complex is being offered for sale by the owners; and WHEREAS, Wis. Stats. s. 32.06(1) requires the County to make a determination of its need for the Schroeder Property by making a determination of necessity in order to proceed with acquisition of the title to the property; and WHEREAS, the acquisition of the Schroeder Property is a public necessity for the Solid Waste Department and La Crosse County for the following reasons:

- <u>Safety</u> The current landfill entrance does not provide adequate space to allow the queuing of customers' trucks when they are waiting to access the landfill resulting in a traffic hazard on Landfill Road, Berlin Drive and on State Road 16.
- <u>Alignment</u> The current landfill entrance does not have a straight alignment with the scale resulting in accidents when larger vehicles drive off the scale.
- <u>Traffic to Industrial Park</u> Trucks waiting to access the entrance to the landfill often have to wait on Berlin Drive which interferes with the movement of traffic to and from the Industrial Park.
- <u>Volume of Traffic</u> The entrance presently allows a maximum of two trucks to be in line waiting for the scale. The current volume of trucks using the landfill varies from 100 to 150 trucks per day resulting in back-ups that extend onto the public streets and highway.
- <u>Conflicting Site Usage</u> The entrance is used by both Household Hazardous Materials (HHM) collection site customers and commercial trucks using the landfill resulting in significant congestion on Wednesdays and moderate congestion on Tuesdays and Thursdays.
- <u>Buffer Zones</u> The entrance does not provide an adequate buffer zone from the public right-of-way and adjacent properties resulting in aesthetic issues and safety problems.
- <u>Economic Development</u> Acquisition of the Schroeder Property will provide for future public road access to adjacent properties for commercial and/or industrial development.
- Long Term Plans Construction of a new landfill entrance will be made possible by the acquisition of this property and will prevent the Schroeder Property from being developed in a manner that conflicts with the landfill and will help preserve the use of the landfill for the 30 to 50 years of its available disposal capacity.

WHEREAS, although the owners of the property caused an appraisal of the property to be prepared as of October 22, 2009 by Midwest Professional Appraisal, Inc., state law requires the County to cause at least one appraisal to be made of the property proposed to be acquired; and WHEREAS, it is in the best interest of La Crosse County to authorize the County Administrator to hire a qualified appraiser to determine the fair market value of the Schroeder Property and prepare a full narrative appraisal; and WHEREAS, upon the completion of the appraisal, County staff designated by the County Board Chair and/or County Administrator shall provide the owners with a copy of the appraisal, inform the owners of their right to obtain an appraisal at County expense and then attempt to negotiate personally with the owners or the owners' representative for the purchase of the needed property. NOW, THEREFORE BE IT RESOLVED, that the La Crosse County Board does hereby make a determination of necessity for acquiring the Schroeder Property to provide for the alterations to the landfill entrance that will increase safety, prevent backup of trucks on public roads, minimize interference with the Industrial Park traffic, allow citizen

users of the HHM collection site to avoid truck traffic, enhance the appearance and provide a buffer zone to the landfill complex and provide control that future development of adjacent properties will be compatible with the landfill operation.

BE IT FURTHER RESOLVED, that the La Crosse County Board does hereby authorize the County Administrator to hire a qualified appraiser to determine the fair market value of the Schroeder Property and the Auditor/Finance Director is authorized to transfer any necessary funds to pay for this work and for the owners' appraisal, if requested by them. BE IT FURTHER RESOLVED, that upon completion of the appraisal of the property, this matter shall be referred to the Public Works and Infrastructure Committee. FISCAL NOTE: Any funds required for the appraisals and purchase of the property shall be transferred from the Solid Waste "Fund Balance Surplus" Account #6500-39100 to "Land Property Acquisition" Account #6500-79047. The owners' appraiser, Midwest Professional Appraisal, Inc. determined the market value of the property as of October 22, 2009 to be \$675,000. The County's cost for appraisal of the property is estimated to be \$1,500 - \$2,500. If the owners obtain an appraisal at County expense, the cost is unknown at this time, but according to the state statute it must be a reasonable cost.
