Child Care Counts Payment Program for Regulated Child Care Providers	Economic Support (ES)	The Wisconsin Department of Children and Families (DCF) launched the redesigned Child Care Counts payment program to support regulated Child Care providers in November. A total of \$351 million in funds is available over the next 18 months and will be distributed through two programs to child care providers. The first payment program aims to increase access to care for younger age children where reasonable alternatives to child care do not exist. Under this program, additional financial incentives are provided to providers who offer child care during non-standard hours and care for children with additional identified needs, such as children with disabilities receiving Birth to 3 services. The second program funds workforce recruitment and retention supports and costs associated with recruiting and retaining high-quality staff. Under this program, additional financial incentives are available to child care programs that participate in YoungStar, Wisconsin's quality rating system. Child Care providers may apply for the additional funding, with opportunities to apply each month through 2023.	ES Manager Lorie Graff 738-2410 lgraff@lacrossecounty.org	No
