

WisDOT 2024-2028

Transportation Alternatives Program (TAP) Application

http://wisconsindot.gov/Pages/doing-bus/local-gov/astnce-pgms/aid/tap.aspx

Review and utilize TAP guidelines and application instructions when completing this document. Visit the WisDOT TAP webpage (see link above) for more information and program resources. Applicants will be notified if their application is found ineligible.

Application Type
Respond to the following questions to identify your application type:
Check the <u>primary location</u> of your project below (Select only one option below)
Rural (Population less than 5,000)
☐ Urban (Population 5,000 − 50,000)
Enter MPO Name Here MPO Priority (Due prior to Application Deadline): 3
Urban Transportation Management Area [TMA] (Population greater than 200,000)
NOTE: If located primarily within a TMA area, select the appropriate TMA from the list below:
Appleton Milwaukee Green Bay Round Lake Beach Madison
Project Applicant Information
Name, Location of Public Sponsor and Sponsor Type:
Applicant Agency Name: City of La Crosse
Application Type (Check appropriate box): Local government (check one): County City Village Town
Regional transportation authority
Transit agency
State or federal natural resource/public land agency
School district or school(s)
Tribal Nation
Non-Profit Organization
Project Title: Willow Trail Resiliency
Describe location, boundaries and length of the project: approximately 2,500 ft N East Ave N & Myrick Park Dr to
a point 3,500 Ft west or 101 Lang Drive.
County: La Crosse
Street Address of Project (if located on a highway or road): W access pt of trail is addressed 101 Lang Dr
Project Contact Information
Primary Applicant Agency Contact Information:
IMPORTANT: Contact listed here must represent the agency who is beholden to the federal grant.
Name: Leah Miller Title: Parks and Forestry Manager Street Address: 400 La Crosse St Phone:
(608)789-8672
Municipality: La Crosse State: WI Zip: 54601
E-mail: millerle@cityoflacrosse.org

Secondary Applicant Agency or Private Organization Contact Information (if applicable):	
NOTE: Contact WisDOT if your proposal includes ineligible entities or public-private partnersh	iips.
Organization / Agency Name:

Proposed Activity	
Activity Questionnaire:	
Using the checkboxes below, Identify your project type:	
⊠ Bicycle-Pedestrian (BP)	
Planning Study Infrastructure	
Construction of Turnouts, Overlooks, and Viewing areas (TOV)	
Historic Preservation and rehabilitation of historic transportation facilities (HP)	
☐ Safe Routes to School (SRTS) ☐ Planning Study ☐ In-School Programing ☐ Infrastructure ☐ TAP STARS (See	e Page A – 9)
<u>Please Note</u> : Applicants proposing a project within the SRTS eligibility category MUS 'School Demographics' and 'Safe Routes to School Plan' sections on page A-6 below.	ST complete the

Brief Project Summary (**100 words or less**). Provide a brief project summary in the field below. This information should adequately describe the scope of your project but should not be as detailed as narrative question #1.

The Willow Trail is a major component of the City of La Crosse bike trail system used for both recreation and commuting. The trail .6 mile trail connects the Vietnam Veteran's and the Grand Crossing Trail, ultimately linking the La Crosse River State trail to Riverside Park and downtown La Crosse. Due to the trails close proximity to the river and lowlying elevation, the trail is frequently inundated by La Crosse River flood flows and is poorly drained – even when the river is within its banks. The recommended improvement is to raise or relocated the low sections of trail to just below the 10-yr flood event such that the trail remains open during smaller, more frequent events.
Project Benefit
Check all applicable project benefits, then describe in application narrative:
ENVIRONMENTAL Increases likelihood of modal shift to biking, walking or transit from utilitarian car travel.
Increases access and connection to the natural environment.
PUBLIC HEALTH - Project would have a demonstrable impact upon public health of applicant
community.
ECONOMIC JUSTICE - Project would go beyond community enhancement to address a specific
"communities of concern," including elderly, disabled, minority, and low-income population? The
project within ½ mile of affordable housing complex(s). The project improves low-income access to transit, jobs, education, and essential services.
SAFETY - Project addresses a specific safety concern. The project contains or addresses:
Collision data
Lack of adequate safe crossing or access
Lack of separated facility
High speed/volumeProvides sidewalk or pathway, with curb-cuts
Provides bike lanes, markings, and signage
Implements traffic calming measures
Signage, warning light devices, and/or markings directed to safety concern
Provides crosswalk enhancement (striping, refuge island, RRFB signal, etc.)
For SRTS Projects there is:
Documented bike/pedestrian crash involving school age children or crossing guard at arrival/dismissal times near the school.
Crossings of state highways, main arterial roads or other high speed or high traffic volume
roads.
Lack of bicycle and pedestrian facilities or lack of connectivity of facilities that do exist.
High level of parental concern documented in survey data.
Few or no children who live within 1 mile walk or bike. Busing may be offered to everyone
because of documented hazards.
Children are walking but application shows that unsafe conditions exist.
HISTORICAL AND/OR PRESERVATION SIGNIFICANCE — Project would have strong historical or preservation benefit.
ECONOMIC DEVELOPMENT — Project facilitates economic development by increasing bicycle/

Local Resolution of Support

pedestrian traffic in commercial corridors or by creating a destination that will help retail.

There is or there will be a local resolution of support for the proposed project, executed I has the authority to make financial commitment on behalf of the project sponsor (i.e., Cc Council, Village/Town Board, or Regional Planning Commission Policy Board).		
Council, village, rown board, or neglorial Flamming commission Folicy board).	⊠ Yes	□No
Please note that a resolution is required for an application to be eligible, which means a		
should be submitted to the Region Local Program Manager no later than 5:00 PM Decer		
WisDOT History of the Project Area

If no, please describe, in no more than 400 words, any S	
, ,	RTS-related planning efforts undertaken by the school or
community.	RTS-related planning efforts undertaken by the school or

Project Costs, Priorities, and State Fiscal Years:

Complete the table below for the appropriate fiscal years of the application/project cycle (2024-2028). If a sponsor proposes to construct a project in phases throughout multiple years, schedule the project costs as appropriate and provide further details in the project description. In addition to the table below, attach a detailed breakdown of project costs in Microsoft Excel. This detailed breakdown must clarify assumptions made in creating the budget such that a third-party reviewer would be able to substantiate the assumptions.

Submit a separate application and budget for each project or stand-alone project segment for which you are willing to accept funding, or for a bike/pedestrian trail section that could function as a separate facility. Project requests are not considered for partial funding.

Project Cost Guidelines:

WisDOT suggests the following cost minimums all proposed TAP projects:

Infrastructure projects	Minimum project cost of \$300,000, including any design work. \$100,000 minimum for federally funded real estate.			
Non-Infrastructure projects	Minimum project cost of \$50,000			
STARS-Eligible Non-infrastructure	Minimum project cost of \$20,000 See Program Guidance materials for additional information			

Applicants may work with the Local Program Manager within their region for assistance to estimate costs more accurately. All estimates will be reviewed by WisDOT Region staff for consistency with current practices and approaches. Also, WisDOT Region staff may revise estimates in these categories due to the complexity of the project or other factors. WisDOT will notify the sponsor of any changes to estimates within the application and determine whether the sponsor wishes to continue with the application with the revised estimate.

NOTE: Requesting design and construction projects in the same fiscal year is not allowed.

Project Prioritization:

TAP Applicants are advised that submitting multiple applications is welcome. However, WisDOT is limited in its ability to award projects based on, funding availability, existing schedules, and selection committee discretion. If a sponsor is submitting more than one project the sponsor must rank each project in priority order, e.g., 1 (highest priority) to 5 (lowest), for the local priority among five projects. Local ranking will be used as a guide in project selection. Project Priority: 3

Project Delivery Method:

Briefly describe the preferred method of project delivery (i.e., consultant contract, local delivery, et	tc.)
Delivery Method: Designed by consultant and locally let	

Delivery Method: Designed by consultant and locally let

NOTE: WisDOT Policy link: http://wisconsindot.gov/Pages/doing-bus/eng-consultants/cnslt-rsrces/rdwy/default.aspx.

NOTE: WisDOT Region staff may revise estimates in the Plan Development, State Review for Design, and State Review for Construction categories based on the complexity of the project or other factors.

Narrative Response

Provide a narrative response attachment answering questions 1 through 5, making sure to provide information in response to each sub-question. Please limit the response to three (3) double-spaced pages, using a **minimum 11-point font size**.

1. PROJECT DESCRIPTION AND OVERVIEW.

This is an expanded summary based on page A-2 of the application. It is a general overview of the project, including type of facility or project, location (please attach a location map or maps) and any other information about the project. It is brief.

2. PROJECT PLANNING & PREPARATION & LOCAL SUPPORT

Describe the degree to which this project was planned for and the local support and commitment for the project. If this project is part of a plan (bike-pedestrian plan, safe routes to school plan, transportation plan, comprehensive plan, etc.), describe that plan and the project's priority in that plan. If this is a planning project describe how this project will be integrated into other efforts. For SRTS projects, describe walk/ bike audits, parent surveys and data on crashes that support the selection of this project.

3. HISTORY OF SPONSOR SUCCESS, DELIVERABILITY AND COMMITMENT TO MULTIMODAL

How will the project be implemented on time? What obstacles or problems must be overcome to implement this project, and considering project obstacles, describe how the project sponsor will comply with state law and policy requiring project commencement within four years of the award date, and project completion within approximately six years? Please describe prior experience with other multimodal projects and success in delivering those projects in the year in which they were scheduled. For example, were you able to deliver the project in the year it was programmed? Have you ever had to turn back awarded federal funds? Please explain. If problems were experienced in the past, what will be done on this project to ensure successful completion? Describe the project sponsor's commitment to multimodal programs and facilities generally like a complete street ordinance, advisory committees, or inclusion of multimodal accommodations in any other local program projects.

4. PROJECT UTILITY & CONNECTIVITY

For Infrastructure Projects

Describe the degree to which this project serves utilitarian rather than recreational purposes and how, if at all, the project adds connectivity to the state's multi-modal transportation network, including bicycle, pedestrian, and transit facilities. Describe how, if at all, the proposed project would connect to these existing land uses: park, school, library, public transit, employment and/or retail centers, residential areas, others. Describe how this project fills a multimodal gap or serves as a backbone to a local multimodal network.

For Planning Projects

Implementation of plan would serve a broad geographic area and adds connectivity to the state's multimodal transportation network. Describe how this project fills a multimodal gap or serves as a backbone to a local multimodal network.

For Safe Routes to School Programming Projects

Will the project get a higher percentage of children walking and biking to school - addresses clear safety problems for children already walking/biking. Address the following desired outcomes: reduction in parent concerns that keep them from allowing children to walk/bike; potential for changes in hazard busing; change in policy limiting walking/biking to school; increased school commitment to promoting walking/biking; improved driver behaviors in the school zone; making it more appealing for children to walk/bike; more law enforcement participation in walking/biking issues

5. PROJECT BENEFIT— ENVIRONMENTAL, LIVABLITY, ECONOMIC JUSTICE, PUBLIC HEALTH, HISTORICAL PRESERVATION, ECONONMIC DEVELOPMENT, ANS SAFETY

NOTE: A TAP project should contribute to a community benefit. No applicant's project is expected to contribute to all the benefits listed on A-3 of the application, but a project that contributes to more than one benefit or has significant impact on a particular benefit will receive more points.

Describe the benefits likely derived from the proposed project, this description should correspond to the project benefit section on page A-3.

Key Program Requirements Confirmation

Please confirm your understanding of the following project condition by typing your name, title and initials at the bottom of this section. A Head of Government/Designee with fiscal authority for the project sponsor must initial this section and sign this application. Sponsor consultant(s) should not initial or sign project applications.

WisDOT will deem ineligible any application that does not provide confirmation to this section.

- a. Private organizations proposing projects must have a public project sponsor such as a local government unit.
- b. The project sponsor or private partner must provide matching dollar funding of at least 20% of project costs.
- c. This is a reimbursement program. The project sponsor must finance the project until federal reimbursement funds are available.
- d. The project sponsor will pay to the state all costs incurred by the state in connection with the improvement that exceed federal financing commitments or other costs that ineligible for federal reimbursement. In order to guarantee the project sponsor's foregoing agreements to pay the state, the project sponsor, through its duly executed officers or officials, agrees and authorized the state to set off and withhold the required reimbursement amount as determined by the state from any monies otherwise due and payable by the state to the municipality.
- e. The project sponsor must not incur costs for any phase of the project until that phase has been authorized for federal charges and the WisDOT Region has notified the sponsor that it can begin incurring costs. Otherwise, the sponsor risks incurring costs that will not be eligible for federal funding.
- f. The project sponsor will follow the applicable federal and state regulations required for each phase of the project. Some of these are described in the Guidelines. The requirements include, but are not limited to, the following: a Qualifications Based Selection (QBS) process for design and engineering services (Brooks Act); real estate acquisition requirements of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 and amendments; competitive procurement of construction services; Davis-Bacon wage rates on federal highway right-of-way projects; WisDOT FDM & Bicycle Facilities Handbook; ADA regarding accessibility for the disabled; MUTCD regarding signage; U.S. Department of the Interior standards for historic buildings. Each WisDOT Region can provide copies of the current *Sponsor's Guide to Non-Traditional Transportation Project Implementation*, and references for sections of the Facilities Development Manual (FDM) and other documents necessary to comply with federal and state regulations. Applicants who plan to implement their projects as Local Let Contracts using the Sponsor's Guide must become certified that they are capable of undertaking these projects.

- g. Snowmobile use is only allowable by local ordinance. Trail fees may only be charged on a facility if the fees are used solely to maintain the trail. WisDOT reserves the right to require that facilities be snowplowed as part of a maintenance agreement where year-round use by bicyclists and pedestrians is expected.
- h. For infrastructure projects, the project sponsor agrees to maintain the project facility. Failure to maintain the facility, or sale of the assets improved with FHWA funds prior to the end of its useful life, will subject the sponsor to partial repayment of federal funds or additional stipulations protecting the public interest in the project for its useful life.
- i. If the project sponsor should withdraw the project, it will reimburse the state for any costs incurred by the state on behalf of the project.
- j. The project sponsor agrees to state delivery and oversight costs by WisDOT staff and their agents. These costs include review of Design and Construction documents for compliance with federal and state requirements, appropriate design standards, and other related review. These costs will vary with the size and complexity of the project. The sponsor agrees to add these costs to the project under the same match requirements 80% / 20% match requirements.
- k. Projects that are fully or partially federally funded must be designed in accordance with all applicable federal design standards, even if design of the project was 100% locally funded.
- I. As the project progresses, the state will bill the project sponsor for work completed that is ineligible for federal reimbursement. Upon project completion, a final audit will determine the final division of costs as between the state and the project sponsor. If reviews or audits reveal any project costs that are ineligible for federal funding, the project sponsor will be responsible for any withdrawn costs associated with the ineligible work.
- m. ***For 100% locally funded design projects, costs for design plan development and state review for design are 100% the responsibility of the local project sponsor. Project sponsors may not seek federal funding only for state review of design projects.
- n. The project sponsor acknowledges that the requisite project commencement requirement and that failure to comply with the applicable commencement deadline will jeopardize federal funding. Commencement is within four years of the date of the project award. The project must be commenced within four (4) years of the project award date according to Sec. 85.021, Wis. Stats. For construction projects, a project is commenced when construction is begun. For planning projects, a planning project is commenced when the planning study is begun. For non-infrastructure projects that do not fall within any of the above categories, a project is considered commenced on the date that WisDOT receives the first reimbursement request from the project sponsor, as noted on form DT1713 in the 'Date Received' field.
- o. The project sponsor acknowledges that the requisite project completion timeline for approved TAP projects will be memorialized in a state-municipal agreement, and failure to comply with the applicable project timeline will jeopardize federal funding.
- p. Federally funded transportation construction projects, with the exception of sidewalks, are likely improvements that benefit the public at large. Improvements of this type cannot generally be the basis of levying a special assessment pursuant to Wis. Stat. § 66.0703. Municipalities who wish to obtain project funding via special assessment levied against particular parcels should seek advice of legal counsel. <u>See</u> Hildebrand v. Menasha, 2011 WI App. 83.

Please confirm your understanding of the following project condition by typing your name, title and initials at the bottom of this section. A Head of Government/Designee with fiscal authority for the project sponsor must initial this section and sign this application. Sponsor consultant(s) should not initial or sign project applications.

I confirm that I have read and understand project conditions (a) through (o) above:

Name: <u>Leah miller</u> Title: <u>Park and Forestry Manager</u>

Only one project sponsor is allowed per project. As a representative of the project sponsor, the individual that signs below are confirming that the information in this project application is accurate. A local official, not a consultant, must sign the application. I understand that completion of this application does not guarantee project approval for federal funding.	
Head of Government/Designee Signature (electronic only): Mitch Reynolds Date: 10/25/2023
