**Guests and Staff:** Joe Langeberg, Keith Back, Peter Fletcher, Jackie Eastwood.

Peter Fletcher called the meeting at 2:30 p.m.

- 1) **Approval of the minutes of the May 12, 2021 TAC meeting:**  
*Bob Gollnik motioned to approve the minutes of the May 12, 2021 meeting; Jarrod Holter seconded. All were in favor.*
- 2) **Recommendation to approve Minnesota 2022-2025 Transportation Improvement Program Project List:**  
*Ron Chamberlain motioned to recommend to the Policy Board to approve the Minnesota 2022-2025 TIP project list as presented; Bob Gollnik seconded. All were in favor.*
- 3) **LAPC 2022 Local Studies Program update:**  
Peter Fletcher stated that the LAPC will have around \$60,000 available for local studies in 2022. Having just completed their comprehensive plan, Holland has expressed an interest in completing a bicycle-pedestrian plan. They have formed an ad hoc trail committee to discuss bicycle and pedestrian connections in the town. Peter shared a scope of work for the planning process. Incorporating the local studies project in the 2022 PWP will allow the recipient to start work in January 2022. No other local government has expressed interest.
- 4) **Review 2022 Work Program items:**  
Peter Fletcher stated that the work program for 2022 will be approved in November. We will have a draft and budget available by September. Peter proceeded to summarize the tasks for 2022.
- 5) **STP-U program update:**  
Peter Fletcher stated that the STP-U program is open to projects on roads classified as collectors or higher. WisDOT is requiring an initial draft application by August 13 to identify elements that may be missing, need for clarifications, etc. Revised applications must be in to WisDOT no later than September 17. Final applications are due October 15. Final applications must also be submitted to the LAPC. The TAC will rank the projects in November. The ranked list will be approved by the Policy Board and forwarded to WisDOT no later than January 22, 2022. We will know the final allocation for our area in August, but the estimate is between \$3M and \$4M.
- 6) **Other updates and information items:**  
Peter Fletcher stated that Minnesota has approved its contribution to the TCMC and Wisconsin has its contribution in reserves. The funding obligations mean that the project for the second Amtrak train can move forward. The project is expected to be completed and operational in 2024. Design will occur in 2022 and construction in 2023-2024. Over \$20M in track improvements will occur between La Crescent and La Crosse which will not only help passenger rail but also freight rail.

Peter Fletcher announced that Ron Chamberlain has taken a position with SEH and will no longer serve on the TAC. He thanked Ron for his years of service.

Peter Fletcher concluded his updates by stating that SRF Consulting continues to work on the Regional Transit Development Plan and is roughly mid-process. They have completed the initial rounds of public input and are now working on a needs assessment. We'll have more at the September and November meetings. The plan will be completed by the end of the year.

Anna Pierce provided a brief update on the process for the Minnesota Statewide Multimodal Transportation Plan. They've developed stories for and are asking for input on six emphasis areas: Aging Infrastructure; Climate Change; Economy and Employment; Equity; Safety; and Transportation Options. **7) September 2021 agenda items:**

- TBD

**8) Other Business; Adjourn; Next meeting to be announced:**

Peter Fletcher stated that we've been conducting our meetings virtually through Teams, but that we've been transitioning to hybrid meetings to offer in-person and remote participation. He asked what the preference of the TAC was for future meetings.

Jarrold Holter stated that he would like to see the virtual option remain for those who can't make it in-person. He thinks the November meeting should be in person for the STP-U ranking process. The committee agreed.

*Jarrold Holter motioned to adjourn at 2:56 p.m.; Adam Lorentz seconded. All were in favor.*

# Introduction

## Introduction

The *2022 Planning Work Program for the La Crosse Area Planning Committee* (PWP, work program) presents work activities that the La Crosse Area Planning Committee (LAPC) will undertake as the designated Metropolitan Planning Organization (MPO) for the La Crosse, Wisconsin and La Crescent, Minnesota Metropolitan Planning Area (MPA).

The PWP is developed with the input and cooperation of the local municipalities, agencies, transit providers, and the public through the LAPC Policy Board, technical committees, and public participation process. Input is also sought from the Federal Highway Administration (FHWA), Federal Transit Administration (FTA) and Minnesota and Wisconsin Departments of Transportation (MnDOT and WisDOT). The PWP is developed to be consistent with the guidance provided in the [Wisconsin Department of Transportation Unified Planning Work Program Handbook](#).

The work program implements *Beyond Coulee Vision 2040*, the metropolitan transportation plan (MTP) for the La Crosse and La Crescent area, adopted by the LAPC in September 2020 in accordance with Fixing America's Surface Transportation (FAST) Act, which was signed on December 4, 2015.

In addition to the Policy Board, the LAPC has two technical committees: The Technical Advisory Committee (TAC) and the Committee on Transit and Active Transportation (CTAT).

The TAC advises the LAPC on technical aspects of transportation planning. The TAC is the primary review group for most proposals brought before the LAPC and makes recommendations on roadway, freight, and Surface Transportation Program-Urban (STP-U) projects and programs. The CTAT advises the LAPC on a wide range of transit, bicycle, and pedestrian programs and issues, including the Transportation Alternatives Program (TAP).

Membership, representatives, structure, purpose, officers and voting procedures of the technical committees can be found on the “Bylaws and Agreements” page of the LAPC website.

Please see [Appendix B](#) for the schedule of meeting times for LAPC committees.

## MPO Staff and Contractors

Staff responsible for the implementation of the work program are Peter Fletcher, Executive Director, and Jackie Eastwood, Transportation Planner. Staff work 100% of their time on MPO work activities as detailed later in this document.

The LAPC does not anticipate contracting with outside agencies in 2022.

## MPO Planning Area

Figure 1 illustrates the LAPC metropolitan planning area (MPA) and the adjusted urbanized area.

Figure 1: LAPC Metropolitan planning area and adjusted urbanized area.

## Planning Priorities and Planning Factors

In general, the scope of the planning process will consider projects and strategies that will:

1. Support the economic vitality of the metropolitan area, especially by enabling global competitiveness, productivity, and efficiency.
2. Increase the safety of the transportation system for motorized and non-motorized users.
3. Increase the security of the transportation system for motorized and non-motorized users.
4. Increase the accessibility and mobility of people and for freight.
5. Protect and enhance the environment, promote energy conservation, improve the quality of life, and promote consistency between transportation improvements and State and local planned growth and economic development patterns.
6. Enhance the integration and connectivity of the transportation system, across and between modes, for people and freight.
7. Promote efficient system management and operation.
8. Emphasize the preservation of the existing transportation system.
9. Improve the resiliency and reliability of the transportation system and reduce or mitigate stormwater impacts of surface transportation.
10. Enhance travel and tourism.

The planning factors are addressed in the LAPC work program elements as shown in Table 1:

The planning emphasis areas developed by the Federal Highway Administration (FHWA) and the Federal Transit Administration (FTA) in 2015 will continue to be planning priorities in 2022:

- **Transition to Performance-based Planning and Programming.** This emphasis area includes using transportation performance measures, setting targets, reporting performance, and programming transportation investments directed toward the achievement of transportation system performance outcomes. Because the LAPC has agreed to support the Minnesota and Wisconsin Departments of Transportation (DOTs) performance targets, work activities involve coordinating and collaborating with our DOTs, FHWA, FTA, and transit providers.  
The LAPC Transportation Improvement Program reports the Federal performance measures, the performance measure targets, and the anticipated effect of the TIP toward achieving those targets. New to the LAPC Metropolitan Transportation Plan (MTP) approved in September 2020 is a system performance report that evaluates the condition and performance of the transportation system with respect to the performance targets and discusses the progress achieved by the LAPC in meeting the targets.
- **Regional Models of Cooperation.** The goal of this emphasis area is to ensure a regional approach to transportation planning by promoting cooperation and coordination across transit agency, MPO, and state boundaries.
- **Ladders of Opportunity.** This last emphasis area concentrates on identifying transportation connectivity gaps in accessing essential services like employment, health care, education, and recreation.

## Status of Current Work Program Activities

---

All but one of the work activities outlined in the 2021 work program will be completed by year's end. The exception is to identify components of a design guide to assist communities with incorporating all users (children, elderly, disabled, etc.) in roadway projects. This activity will not be forwarded to the 2022 PWP.

Staff re-evaluated the design guide work program activity and determined the time it would take to develop a design guide the MPO would be better served by utilizing existing resources/design guides. State DOT's and other agencies have design guides/information that staff can provide to our communities as needed versus creating (at some level duplicating) a customized local design guide.

# Program Elements

## Introduction

The following sections provide detail for the 2022 planning work program elements. Please see [Appendix C](#) for the 2022 PWP Budget and Elements Detail for the more detail on funding sources, staff costs, and hours and schedules, and [Appendix D](#) for the LAPC Indirect Cost Allocation Plan.

### Staff Time Allocation

At the discretion of the Policy Board and as approved by the annual work program, the time the Executive Director devotes to MPO activities may be reduced to perform activities not directly related to transportation planning. It is anticipated that 100% of the Director's time in 2022 will be devoted to MPO activities.

Director: 100% MPO (2,080 hours).

Transportation Planner: 100% MPO (2,080 hours).

## 100 Program Support and Administration

2022 Staff Hours: 1,330

2022 Budget: \$102,070

### Objective

Program Support and Administration activities include the coordination of technical committee and policy board meetings, staff training and travel, preparing the following year's work program and quarterly accounting. Also included are program expenses<sup>1</sup> (office supplies, printing and mailing, indirect costs, vacation, and holiday time, etc.) that support the operation of the office and compensation of staff.

### Previous Work

These activities have remained relatively constant since the LAPC started back in 1972.

### 2022 Work Goals

#### New for 2022

- Conduct hybrid (virtual/in-person) meetings of the LAPC to offer more public access to meetings.

#### Ongoing

- Coordinate TAC, CTAT, and Policy Board meetings.
- Prepare the PWP, quarterly accounting, billing for local dues, and budget (coordinated with La Crosse County).
- Prepare resolutions supporting State performance targets, adopting MPO plans and programs, and supporting local and regional transportation plans and projects.
- Participate in meetings with FHWA, DOT, RPCs, and other agencies. This includes travel to MPO Directors' meetings (when applicable), training, ATP meetings, technical committee meetings and other activities. Minnesota DOT (MnDOT) requires that \$3,000 of planning funds be used for training.

<sup>1</sup> Program expenses are in compliance with 23 CFR 420.113 and 2 CFR 200.

## Process

The LAPC redesigned website was launched in the first quarter of 2021. In 2022, the website will be continually improved to better inform persons with limited-English proficiency as well as the general public. In 2020-2021 the pandemic resulted in the LAPC and advisory committees to meet remotely, though challenging the resulting hybrid meeting format allowed more people access to LAPC and advisory committee meetings. In 2022 LAPC will continue to utilize meeting formats that allow for in-person and virtual meetings.

Ongoing activities include those that contribute to the operation of the LAPC as an organization.

All short-range planning activities implement and are consistent with the goals, policies, and objectives of the MTP. Technical assistance to our member communities and to our planning partners falls under this category.

### Previous Work

Past short-range activities engaged in by LAPC staff include preparing two successful TAP grant applications for La Crosse County (bike/ped bridge and a bike/ped connector trail), conducting the data analyses for the [Commuter Bus Service Feasibility Study](#), and working with MTU staff to develop a new route for the MTU Circulator. In addition, a vulnerability assessment of transportation facilities was completed in 2018, and staff

have worked with our CTAT and other partners to sign our first regional bike route and to develop additional regional bicycle route recommendations through south La Crosse and between the Wagon Wheel Trail in La Crescent, MN and La Crosse, WI.

### Process

The TIP document is updated annually. This update includes public notice of the process, solicitation, and reviews of changes to planned and ongoing projects, preparation of an updated project list, and preparation of a final TIP document. The TIP includes a fiscally constrained financial plan documenting the availability of funds for planned projects. The TIP is also required to include a discussion of the anticipated effect of the TIP toward achieving the performance-measure targets and link the area investment priorities to those targets.

The LAPC Executive Director is a designated voting member of the MnDOT District 6 Area Transportation Partnership (ATP). The ATP is responsible for district-wide decisions on federal and state transportation funding and policies. This activity includes participation by the Director at monthly meetings, review of supporting materials, review of Transportation Alternatives Program (TAP) projects, and membership on sub-committees as required.

## Previous Work

Past projects completed through Consultant Studies include *Coulee Vision 2050*, *Twin cities – Milwaukee – Chicago 2<sup>nd</sup> Empire builder Study*, and *Bicycle Impact Analysis for the City of La Crosse*. In 2021 the program funded the Regional Transit Development Plan for the public transit service providers in the planning area.

## 2022 Work Goals

### New for 2022

- The Town of Holland will utilize “Consultant Studies Funding” to contract services for the development of a Bike and Pedestrian Plan for the town.

## Process

Local studies are funded from a combination of federal planning funds and annual local dues, and the budgeted reserve fund.

In 2022 the town of Holland will contract with a planning consultant to develop a Bike and Pedestrian Plan for the town. The bike and pedestrian plan will be prepared through a public process that will include an inventory of existing bike/ped facilities, identification of trip generators and trip destinations throughout the town and region. The document will include recommendations to improve bike and pedestrian facilities, connections, prioritization of projects and estimated costs.

# Appendix D: Indirect Cost Allocation Plan

## Office Indirect Costs

Budgeted indirect costs are \$14,000 for 2022. These costs are billed by La Crosse County to partially cover indirect costs of central services departments.

The indirect costs are based on the La Crosse County *Central Services Cost Allocation Plan* based on 2020 financials. The indirect cost allocation plan is prepared in accordance with 2 CFR 200 Subpart E—Cost Principles as guidance for determination of cost allocation and basis selection. The Cost Allocation Plan Certification is shown below under, *Certificate of Cost Allocation Plan*. The Cost Allocation Plan is submitted to the US Department of Health & Human Services as the cognizant federal agency for La Crosse County.

The indirect cost allocation plan distributes the allowable costs of central serviced departments (such as the La Crosse County Finance Department) based on allowable allocation or distribution methodology depending on the nature of cost and benefit provided to its recipients (such as the LAPC staff office). For example, the Finance Department provides accounting, payroll and other financial services to all county departments, including the LAPC.

The indirect cost allocation plan includes a narrative describing the services provided by each central services department and the activities or functions provided to grantee departments benefitting from its services. All costs for each central services department are analyzed to determine if they are allowable for charging to grantee department and to which activity or function they will be allocated from. A detailed distribution showing the actual cost allocation basis is also presented for each function. For example, the Building Use allocation is based on the amount of square feet occupied by the LAPC office.

As shown in Table 3, office indirect costs for the LAPC office are calculated at \$64,789. The LAPC incurs an annual indirect charge of \$14,000. La Crosse County considers additional indirect costs (\$50,789 in 2020) as an in-kind contribution. Indirect insurance costs include Workers' Compensation and General Liability.

Indirect costs are charged to federal, Wisconsin state and local funding sources. The costs are charged proportional to the billing period. The distribution of costs will depend upon the available federal and state balances when the indirect costs are charged. The maximum federal and state shares will be 80% and 5% respectively. The remaining 15% will be local funding.

Table 3: Central Services Cost Allocation Plan

Central Services Dept	LAPC Office Total Indirect Cost	In-Kind Contribution (La Crosse County)	LAPC Office Indirect Cost
Building depreciation	\$8,307	\$6,512	\$1,795
Special accounting	65	51	14
Building maintenance	4,853	3,804	1,049
Finance	1,125	882	243
Insurance	1,603	1,257	346
County Administrator	10,734	8,415	2,319
Human Resources	2,012	1,577	435
Information technology	35,914	28,153	7,761
County treasurer	176	138	38
<b>Total:</b>	<b>\$64,789</b>	<b>\$50,789</b>	<b>\$14,000</b>

### Leave and Fringe Benefit Rates

The 2022 leave-additive indirect cost rate is based on an estimated vacation, sick and holiday leave of 210 hours per staff member, out of a total of 2,080. This represents about 10.10% of regular direct salaries.

The fringe benefit rate is 24.64% of total salary and benefits in 2022.

### Certificate of Cost Allocation Plan

La Crosse County certifies its cost allocation plan for the LAPC with a *Certificate of Cost Allocation Plan*:

#### CERTIFICATE OF COST ALLOCATION PLAN

This is to certify that I have reviewed the cost allocation plan submitted herewith and to the best of my knowledge and belief:

1. All costs included in this proposal (as dated below) to establish cost allocations or billings for the year ended December 31, 2020 are allowable in accordance with the requirements of 2 CFR 200 and the Federal Award(s) to which they apply. Unallowable costs have been adjusted for in allocating costs as indicated in the cost allocation plan.
2. All costs included in this proposal are properly allocable to Federal Awards on the basis of a beneficial or causal relationship between the expenses incurred and the Federal awards to which they are allocated in accordance with applicable requirements. Further, the same costs that have been treated as indirect costs have not been claimed as direct costs. Similar types of costs have been accounted for consistently.

I declare that the foregoing is true and correct.
