

## La Crosse County Oral Health Programs

### Fluoride Varnish

Fluoride varnish is a protective coating that is painted on teeth to help prevent new cavities and to stop cavities that have already started. This program is offered to children 6 months through 18 years of age. For more information on the Fluoride Varnish Program [click here](#)

### Seal-A-Smile

A sealant is a thin, tooth-colored, plastic coating that is painted on a tooth to help prevent cavities from forming. La Crosse County Seal-A-Smile works with select schools in La Crosse County to apply sealants in the school setting to children in 2<sup>nd</sup> and 6<sup>th</sup> grades. This program is funded by the WI Seal-A-Smile, a collaborative program of the Children's Health Alliance of WI and the WI Department of Health Services. For more information on the Seal-A-Smile program [click here](#). To sign your child up for the program [click here](#).

### Restorative

A dentist is available to come to select schools in La Crosse County to provide restorative dental services at school for children in need.

### Fluoride Mouth Rinse

Fluoride rinse is a weekly mouth rinse done at school for children in grades 1-5. La Crosse County currently coordinates the program with Bangor Elementary.

### Fluoride Supplement

Fluoride supplements are recommended for children 6 months to 16 years of age living in areas without an optimal amount of fluoride in their drinking water. For more information on the Fluoride Supplement Program [click here](#).

### Dental Access

Finding a dentist can be difficult at times depending on what type of dental coverage you may have. We may be able to assist you with finding a dentist. For more information [click here](#).

### Community Water Fluoridation

Community water fluoridation is one of the 10 greatest public health achievements in the twentieth century. For every dollar spent on community water fluoridation, up to \$38 is saved in treatment costs for tooth decay. La Crosse County Health Department strongly supports community water fluoridation.
