

La Crosse County Child Death Review Team

La Crosse County's Child Death Review Team was established in 2012 to review causes of childhood deaths and determine ways our community can prevent future deaths. This team is a collaboration between La Crosse County Health and Human Services Departments, The Office of the Medical Examiner, Mayo Clinic Health System, Gundersen Lutheran, School Districts (La Crosse, Onalaska, Holmen, Bangor and West Salem), La Crosse Fire Department, Tri-State Ambulance, Stein Counseling, Stepping Stones, District Attorney's Office, Sheriff's Department, and area Police Departments (La Crosse, Onalaska, Holmen, Bangor and West Salem).

La Crosse began their team as part of a statewide initiative to establish a statewide fetal infant mortality and child death review program. Training and continued guidance is provided by the [Children's Health Alliance of Wisconsin](#).
